

RF Hazard Warning Signs

At many broadcast sites, levels of electromagnetic radiation emitted in various areas can exceed the safe limits for human exposure.

In these circumstances 'Warning Signs' should appear to identify those hazardous areas around the site to comply with Occupational Health and Safety (OH&S) regulations. Australian Radiation Protection and Nuclear Safety Agency (ARPANSA) standards and AS1319 (Standards Australia 1994)

ZCG Scalar can supply appropriate 'Warning Signs' regarding general public exposure limits, non-ionising radiation and restricted area.

Order Code	Material (specify)	Specifications
WS-BS	Colourbond	200mm x 130mm
WS-BL	Colourbond	300mm x 200mm
WS-RL	Colourbond	300mm x 200mm
WS-YC	Colourbond	300mm x 200mm
WS-YC2	PVC	300mm x 200mm
WS-YD	Colourbond	300mm x 200mm
WS-YD-LS	Colourbond (landscape orientation)	200mm x 300mm
WS-YT	Colourbond	300mm x 200mm
WS-YU	Colourbond	300mm x 200mm

If you wish to vary the standard text appearing on these signs, then please provide ZCG Scalar with details.

Warning signs come with no mounting holes, leaving you with the option on method of mounting.
