

## Marine Mast Mounting

### Adaptors and Clamps

Marine mast mounting gives the option of mounting a deck mounted antenna higher on a vessel or structure to reduce possible obstructions.

Some antennas require the use of the MMA mounting adaptor to convert them from deck mount to mast mounting configuration.

Any marine antenna with a MM1 or MM2 deck mount base can be altered to become a mast mount antenna.

Coaxial feeder cable, connectors, water-proofing and other installation accessories are all available separately.

Specifications	MMA	MMA-1200	MMA-SS
Construction	Aluminium	Aluminium	Stainless Steel
Dimensions	250mm x 25mm	1200mm x 25mm	250mm x 25mm
Thread (one end)	1"-14 UNS	1"-14 UNS	1"-14 UNS
Mounting Accessories (recommended)	2 x EB1SS or 1 x UB3SS (order separate)	2 x EB1SS or 1 x UB3SS (order separate)	2 x EB1SS or 1 x UB3SS (order separate)

Specifications	EB1/SS
Construction	Stainless Steel
Boom Diameter	20-50mm (round)
Mast Diameter	20-50mm (round)
Mounting Orientation	Parallel 180°
Service	Light to Medium Duty
Weight	380grams
<b>2 clamps recommended for mounting</b>	

Specifications	UB3SS
Construction	Stainless Steel
Boom Diameter	20-32mm (round)
Mast Diameter	20-50mm (round)
Mounting Orientation	Parallel 180°
Service	Light to Medium Duty
Weight	450grams
<b>Single clamp sufficient for mounting</b>
