

AUSTRALIAN MADE
ANTENNAS
FOR EXTREME CONDITIONS

Australian made round boom Yagis. Quality and performance at a competitive price

Now Available in:

- 4G LTE 700-788MHz
- Telstra 3G 825-890MHz
- Optus & Vodafone 3G 890-960MHz

Features and benefits

- Y4 Series covering UHF 380-520MHz
- Y7 series covering 4G LTE 700-788MHz
- Y8 Series covering 3G/4G 825-960MHz
- Available in 6, 9 or 15 element configurations
- Flexible mounting in new or existing brackets
- Lightweight aluminium design for reduced wind loading
- Individually packaged for ease of transport and storage

Round Boom Yagi

ZCG understand that today's market requires a cost effective Yagi that performs like a premium Yagi. ZCG's new range of aluminium round boom Yagis achieve this, with the added ability to be mounted to any pole or structure with a new or existing clamp. The ZCG standard range of round boom Yagis match ZCG's premium square boom Yagi's in all performance levels and radiating patterns.

ZCG understand the high demand frequency bands and have created Yagis to suit, in the UHF range 380-520MHz and 4G LTE 700-788MHz, 4G and 3G 825-960MHz mobile phone .

Popular frequency bands are kept in our warehouses for immediate delivery. Alternative frequencies can be requested, these will require custom building in our Victorian manufacturing plant. Please contact ZCG for accurate availability times.

The range of round boom Yagis come in 6 element for 9dBd low gain requirements, 9 element for 11.5dBd medium gain requirements and 15 element for 14dBd high gain, long distance links. Please see the table below for available configurations of the Yagis.

All ZCG round boom Yagis come standard with a N-type female connector attached to a 200mm cable tail with a rated power of 150 Watts for the Y4 series and 50 Watts for the Y7 and Y8 series.

Customisation of any of our products with alternative frequency bandwidths, alternative connectors, bird-proofing or strain-relief are available upon request, please contact ZCG for more information.

ZCG recommend the following clamps to mount your round boom Yagi to your structure.

6 Element	1 x RB8 / RB8-L
9 Element	1 x RB8 / RB8-L
15 Element	1 x RB8 / RB8-L & Strut Kit

Y4 series
