

PD-716716 series power dividers

7/16" DIN input & output, single or two-stage

Page 1 of 2

Power dividers are designed to allow antennas to be mounted in a 2, 3 or 4 stack phased array formation, whilst maintaining optimum return loss, ideal for broadcasters.

The length and weight of power dividers will vary according to frequency. Set frequency power dividers available, see following page.

Branch feeders, water-proofing, bird-proofing and other installation accessories are all available separately.

Specifications	
Construction	Black powdercoated finish brass outer, solid brass inner line, PTFE insulator supports and external connectors - can be supplied in alternate colours on request
Input connector	7/16" DIN female - in base, must face down when installed
Output connector	7/16" DIN female - in head
VSWR	1.1:1
Maximum power	2kW with 2 to 4 output connectors
Impedance	50 Ohms
Dimensions	Length and weight will vary according to frequency
Mounting hardware	2 x PDC-L - 30-50mm mast, supplied
Branch feeders	Can be assembled upon request, consult ZCG - specify requirements
Warranty	2 Years

SKU: Single stage	Frequency range	Bandwidth	Output connectors
PD-7167162	Specify frequency	Specify 10% around centre frequency	2 x 7/16" DIN female
PD-7167163			3 x 7/16" DIN female
PD-7167164			4 x 7/16" DIN female
SKU: Two Stage	Frequency range	Bandwidth	Output connectors
PD2-7167162	Specify frequency	Specify 25% around centre frequency	2 x 7/16" DIN Female
PD2-7167163			3 x 7/16" DIN Female
PD2-7167164			4 x 7/16" DIN Female
