

B20G-N-AIS

Automatic Identification System Mast Mount Side Mount Collinear

The B20G-N-AIS is specifically designed for Automatic Identification System (AIS) for use in a marine environment.

All components used in construction are of the highest quality to ensure the antenna will survive the harshest environment for many years.

Mounting clamps, coaxial feeder cables, connectors and other installation accessories are all available separately.

Specifications	B20G-N-AIS
Construction	White radome, stainless steel mount tube
Frequency	AIS 161.975-162.025MHz
Tuning	Factory
Gain	5.1 dBi
Impedance	50 Ohms
Polarisation	Vertical
H Plane	360° omnidirectional
Connector	N-female in base of mount tube (no cable)
Height	3.2 metres
Weight	1.5Kg
Mount Tube	500mm long x 32mm diameter
Mast Mounting Accessories	2 x EB1-SS (order separate)
