

ZM14-AIS

NEW

Automatic Identification System

The ZM14-AIS antenna is specifically designed for Automatic Identification System (AIS) on marine vessels.

The benefit of AIS is that a vessels information such as weight, length, speed and destination is broadcast to all vessels in the near vicinity and online, to improve safety on the water.

Alternative mounting options, water-proofing, adaptors and other installation accessories are all available separately.

Specifications	ZM14-AIS
Construction	White radome and chrome mount ferrule
Frequency Range	AIS 161.9-162.1MHz
VSWR	<1.5:1
Tuning	Factory
Gain	2.1 dBi
Maximum Power	50 Watts
Impedance	50 Ohms
Polarisation	Vertical
H Plane	360° omnidirectional
Cable	300mm of white RG58 low loss (side exit from ferrule)
Connector (fitted)	N-female
Height	1.4 metres
Weight	900grams
Mounting Accessories	Choose either plastic or stainless steel fold down base when ordering (not included)
