

## Parallel mast mount clamps

Page 1 of 2

Specifications	EB1-SS
Construction	304 stainless steel
Boom diameter	20-40mm - round
Mast diameter	20-45mm - round
Orientation	Parallel 180°
Service	Light to medium-duty
Weight	380grams
2 clamps recommended for mounting	

Specifications	UB3-SS
Construction	304 stainless steel
Boom diameter	20-32mm - round
Mast diameter	20-45mm - round
Orientation	Parallel 180°
Service	Light to medium-duty
Weight	450grams
Single clamp sufficient for mounting	

Specifications	SB1
Construction	Galvanised Steel
Boom Diameter	48.4mm (round)
Mast Diameter	48.4mm (round)
Orientation	Swivel 360°
Service	Medium Duty
Weight	1.7kg

Specifications	SB4
Construction	Galvanised Steel
Boom Diameter	48.4mm (round)
Mast Mounting	Using M10 bolt
Orientation	360° mounting
Service	Medium Duty
Weight	1.7kg

## Parallel mast mount clamps

Page 2 of 2

Specifications	UAM180L
Construction	Galvanised steel
Boom diameter	40-75mm - round
Mast diameter	40-75mm - round
Orientation	Parallel 180°
Service	Heavy-duty
Weight	1.8kg
2 clamps recommended for mounting	

Specifications	UAM180UNI
Construction	Galvanised steel
Boom diameter	40-75mm - round
Mast diameter	40-90mm - round
Orientation	Parallel 180°
Service	Heavy-duty
Weight	1.9kg
2 clamps recommended for mounting	

Specifications	UAM180UNIL
Construction	Galvanised steel
Boom diameter	40-90mm - round
Mast diameter	60-115mm - round
Orientation	Parallel 180°
Service	Heavy-duty
Weight	2.1kg
2 clamps recommended for mounting	

Specifications	UAM180UNI-42
Construction	Galvanised steel with 42mm stainless steel spacers
Boom diameter	40-90mm - round
Mast diameter	60-115mm - round
Orientation	Parallel 180°
Service	Heavy-duty
Weight	2.3kg
2 clamps recommended for mounting	

Specifications	UAM180UNIL-48
Construction	Galvanised steel
Boom diameter	50-70mm - round
Mast diameter	115-155mm - round
Orientation	Parallel 180°
Service	Heavy-duty
Weight	2.5kg
2 clamps recommended for mounting
