

Stand-off brackets

Custom designed for wall or pole mounting

When mounting antennas to a pole or wall, ZCG can manufacture stand-off brackets custom made to a design that suits your precise mounting situation.

To clearly specify your requirements, we prefer that you provide us with a design drawing detailing all measurements.

Photographs of the installation site will assist in design and manufacture.

Coaxial cable, connectors, bird-proofing and other installation accessories are all available separately.

SPB - stand-off pole bracket

Galvanised steel, painted if required

Provide us with a design drawing. Also any photos of the installation site

Specify the quantity required

Specify whether the pole is parallel or tapered and diameter of the pole

Specify required stand-off distance

Specify antenna mounting arrangement (U-bolts and clamps or steel tube)

SWB - stand-off wall bracket

Galvanised steel, painted if required

Provide us with a design drawing. Also any photos of the installation site

Specify stand-off distance

Specify antenna mounting arrangement (U-bolts and clamps or steel tube)

2366 - stand-off pole bracket

Bolt to a wall, or use the supplied U-bolts to clamp to a round mast

Stand-off distance of 900mm

Rotatable

Available in aluminium, stainless steel or galvanised steel, specify on order

Painted if required, specify on order
