

PVC cable hangers

Single or double hanging

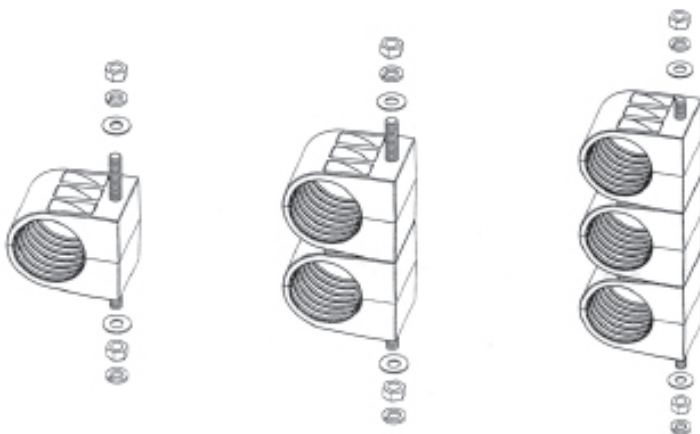

Suits 1/2" or 7/8" Cable

PVC cable hanger clamps are a modern solution to install 1/2" or 7/8" foam dielectric coaxial cables. Multiple runs of coaxial cable can be stacked in space saving configurations of parallel rows.

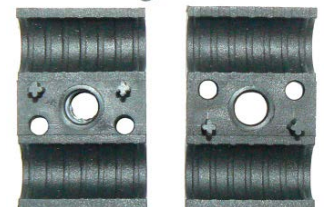

Each compact PVC hanger clamps holds one or two runs of cable. It is recommended a clamp be placed at one metre intervals. The internal cable gripping ridges press into the cable jacket to provide firm support in heavy winds and ice loading conditions.

Coaxial cable, connectors, water-proofing and other installation accessories are all available separately.

Specifications	PVC cable hanger clamps
1/2" Cable - single	HC1250 - pack of 10
1/2" Cable - double	HCD1250 - pack of 10
7/8" Cable - single	HC7850 - pack of 10
Construction	Black UV resistant PVC
Suitable mounting	ANGLE-AD, RSB-310 or threaded rod - order separate
