

## RF Cable Assemblies

### Branch feeders & Patch Leads

ZCG can assemble RF cable sets to customer specified requirements, from patch leads up to high end base station and broadcast branch feeders.

ZCG has a wide range of standard range RF cable assemblies, or you can specify your own custom requirements.

Water-proofing, lightning protection, earthing kits and other installation accessories are all available separately.

Custom Cable Assemble requirements	
Coaxial Cable type	Specify type of cable including Ohm requirements
Cable Length	Specify cable length
Connector to be fitted 1	Specify connector to be fitted to end 1
Connector to be fitted 2	Specify connector to be fitted to end 2
Special Requirements	Specify strain relief, bird-proofing, etc
Quantity	Specify amount of RF Cable assemblies required

ZCG has a large list of standard RF cable assemblies, please consult ZCG sales consultants for more information.
