

Pneumatic masts

Hand pump or compressor assisted
portable or permanent installations

ZCG have partnered up with Fireco pneumatic masts, manufactured in Italy since 1975. Providing portable pneumatic masts for applications including broadcast, communications, surveillance as well as military applications.

ZCG's range of Fireco pneumatic masts come in a variety of configurations, sizes, mounting with a large number of accessories.

For a full listing of the available Fireco masts and accessories please consult our website www.zcg.com.au or contact us directly in either Queensland, Western Australia or our head office in Victoria.
